

Tutoring Services

The Academic Performance Center and Writing Center offer FREE 30 minute, non-consecutive tutoring sessions. Sessions are led by a certified peer tutor who previously received an A in the course that they are tutoring. Tutors in the Writing Center can help you with any writing assignment. Tutors in the APC offer tutoring in almost any subject excluding Math. Studies show that tutoring can improve course results by a whole letter grade.

Open Educational Resources

The UT Library is working to save students money. The OER program helps faculty replace pricey textbooks with free, open materials.

FEWER EXPENSES

EASY ACCESS

CUSTOMIZED CURRICULUM

PRO TIP:

When registering, pay attention to any attributes attached to a course. This is where you can see if a course is Supplemental Instruction or OER.

Supplemental Instruction

SI Courses have built in extra resources to help students succeed. In addition to attending the professor's lecture, students are required to attend an SI Session, a collaborative study session led by a peer SI Leader.
